### **How would you improve this session?**

- More time
- Have a basic class at a slower rate
- More how to... and less social commentary on tech in the world and social interactions

### **What specific information was of greatest value to you?**

- Importing my docs to Google and creating files
- Websites to explore
- How to import word and PowerPoint to convert to Google Docs. How to use Docs, classroom & slides
- Just being able to explore Google Drive, Google Classroom, and Hyper-docs was helpful

### **What will students in your classroom be doing differently as a result of this session?**

- Will be starting to use Google doc more
- Nothing now – we are limited in bandwidth
- Nothing right away, I will just get more comfortable first
- Much of what I learned will be helpful to me and my team members. As for the kindergarteners, I think with time, we will see it impact them when more kids are equipped with computers at home & school.

### **Suggestions for future inservice offerings: subject, speaker, etc.**

- Let's meet again in the fall
